

# TECHNOLOGIES4YOU

## BUSINESS TECHNOLOGY EXPERTS

YOUR ENTERPRISE PARTNER FOR OPERATOR-ASSISTED CONFERENCING, WEBCASTS, VIRTUAL EVENTS, AND CLOUD SERVICES

## COMPLETE PRODUCT PORTFOLIO

### OPERATOR ASSISTED CONFERENCING

Operator-assisted conferencing with experienced operators ensuring flawless, secure, high-touch execution for every important business call.

- Live Operator Support
- Completely customizable call flow
- One contact scheduling to execution
- Scalable for any size audience
- Extensive Feature Set

### CLOUD COMMUNICATIONS

It's not just hosted voice anymore. You need a single provider that can cover everything from the backbone architecture to the cloud software implemented on it to enable communications.

- Voice for Microsoft Teams
- Virtual Work Phone Plans
- Website Voice Chat
- SD-WAN
- AI Powered Customer Service

### WEBCASTING

Professionally managed webcasts delivering seamless presentations, global engagement, secure access, and expert live event support.

- Dedicated Event Manager
- Audience Engagement Tools
- Secure Event Access
- Seamless Live Streaming
- Scalable for any size audience

### VIRTUAL EVENTS

Fully managed virtual events delivering seamless experiences, interactive engagement, professional support, and reliable global connectivity.

- End to End Management
- Interactive Event Experience
- Live Technical Support
- Global Audience Reach
- Completely customizable user experience

### LIFE AND SAFETY

Keeping your organization safe with critical links between the public and public safety. Unify your essential messaging across devices and platforms.

- E911 Compliance
- E911 for Microsoft Teams
- Mass Notification Platform
- Custom IVR Applications

### OTHER TECHNOLOGIES

Through our extensive partner network we can engage the right teams to advise on the right solutions and source them appropriately. There are many sub-categories, but other areas of expertise include:

- Networking
- Expense Management
- Security
- Internet
- Managed Services
